### **Course Description:**

The AHA's ACLS Course has been updated to reflect new science in the *2010 American Heart Association Guidelines for Cardiopulmonary Resuscitation and Emergency Cardiovascular Care*.

This classroom, video-based, Instructor-led course builds on the foundation of lifesaving BLS for Healthcare Providers skills, emphasizing the importance of continuous, high-quality CPR. This advanced course highlights the importance of team dynamics and communication, systems of care and immediate post-cardiac arrest care. ACLS also covers airway management and related pharmacology.

In the ACLS Course, skills are taught in large-group sessions and small-group learning and testing stations where case-based scenarios are presented.

For successful course completion, students must demonstrate skills competency in all learning stations, pass the CPR AED skills test, bag-mask ventilation skills test and the Megacode test. They also must pass the written test with a score of 84% or higher. Upon successful completion, students receive an ACLS course completion card, valid for two years.

### **Product Specifications:**

The *ACLS Provider Manual* is for use by a single student and provides information needed before, during and after the course. This manual also gives students access to a website containing additional information and reference materials to help them successfully complete the course. Following are the specifications for this manual:

- 8.375" x 10.875" manual
- Includes 172 pages of full-color images and text
- Bound within a full-color soft cover
- Includes *ACLS Pocket Reference Card Set* (Product #90-1012; also sold separately)
- Includes 1 (one) sheet of tab labels
- Includes 1 (one) *ACLS Precourse Preparation Checklist Card* (4" x 6.5")
