### **Description:**

The Suspected Stroke Algorithm/Prehospital Stroke Scale Card illustrates the Suspected Stroke Algorithm on one side and the Cincinnati Prehospital Stroke Scale on the other. It has been updated to reflect new science in the *2010 American Heart Association Guidelines for Cardiopulmonary Resuscitation and Emergency Cardiovascular Care*.

This pocket-sized, laminated, two-sided card is a quick reference tool that healthcare professionals can access during the ACLS Course and in a variety of healthcare settings.

### **Product Specifications:**

Following are the specifications for this card:

- 4" x 6.5" card
- Full-color
- Printed on 80# cover text
- Laminated
- Shrink-wrapped in packages of 25 cards

### **Intended Audience:**

This card is for healthcare professionals involved in the management of cardiopulmonary arrest or other cardiovascular emergencies. This includes personnel in emergency response, emergency medicine, intensive care and critical care units such as physicians, nurses, and paramedics and others.
