Product Retail Price:	\$96.00
Product Market:	Healthcare
Ordering Information:	Order from ECC Distributors
Date Available:	March 23, 2011

Course Description:

The BLS for Healthcare Providers Course has been updated to reflect new science in the *2010 American Heart Association Guidelines for Cardiopulmonary Resuscitation and Emergency Cardiovascular Care*.

This video-based, Instructor-led course teaches both single-rescuer and team basic life support skills for application in both in- and out-of-hospital settings. This course trains participants to promptly recognize several life-threatening emergencies, give high-quality chest compressions, deliver appropriate ventilations and provide early use of an AED. It includes adult, child, and infant rescue techniques. This course also teaches relief of choking.

BLS for Healthcare Providers teaches skills using the AHA's research-proven Practice-While-Watching technique, which allows Instructors to observe the students, provide feedback and guide the students' acquisition of skills. The course uses a recommended ratio of 6 students to 2 manikins to 1 instructor.

Product Specifications:

The *BLS for Healthcare Providers Instructor Package* includes all tools needed for BLS Instructors to teach the BLS for Healthcare Providers Course. The following items are included in this convenient package:

- *BLS for Healthcare Providers Instructor Manual* (product #90-1036; includes manual, initial and renewal course Lesson Maps, the *BLS for Healthcare Providers Instructor CD* and divider tabs)
- *BLS for Healthcare Providers Student Manual* (product #90-1038; includes manual and pocket reference card)
- *BLS for Healthcare Providers Course and Renewal Course DVD* (product #90-1035)
- AHA stopwatch

The BLS for Healthcare Providers Instructor Package comes in a cardboard container.

Intended Audience:

The BLS for Healthcare Providers Course is designed for healthcare professionals and other personnel who need to know how to perform CPR and other basic cardiovascular life support skills in a wide variety of in- and out-of-hospital settings.
